

## *Our Staff*

We have on-site staff with 24-hour coverage at each of our four-resident homes. Our caregivers receive 240 hours of on-the-job training during their orientation period, as well as spring and fall annual training sessions.

Most of our homes have one caregiver during each shift who cook, clean, and care for the home's residents. We provide additional staffing as needed.

# *JLH Enterprises = Just Like Home*

After working for 14 years as a Nurse at Northern Center and 11 years at a nearby nursing home, I realized more adult family homes were needed in the area.

In 1995, I started Riverview Manor in Cadott, Wisconsin, with the first Adult Family Home License in the State. We expanded over the past ten years to five homes and an activity center, and changed our name to JLH Enterprises. We presently provide services to 14 Wisconsin Counties.

As a family-run business, we are involved in every aspect of caring for our residents. We care for our residents and employees like family.

Joyce Huhn, Founder

## *Our Homes*

Riverview Manor I

All of our homes are located in the Village of Cadott, a small town approximately 35 miles Northeast of Eau Claire, Wisconsin.

We pride ourselves in furnishing and maintaining our homes in the best manner possible. Our homes are just like any fine family home in the area. All homes have a fireplace, covered patio, and/or deck, common living areas, and activity or other rooms. Most residents have their own bedrooms. We can accommodate some personal possessions and furniture for our guests. Several of our facilities are wheelchair accessible.

If physically possible, residents are taken by our vans to our activity center several times per week to work on games, crafts, other activities, or just to relax. Our experienced Activity Director works with all the residents to keep them active and involved.

We presently have five homes and are expanding to accommodate additional clients. Because all of our facilities are unique, we have a variety of options available for any new residents. We take into consideration the home, the setting, and any physical limitations, to place each individual in the best possible setting. We also consider the personalities of the other residents, as well as personal preferences, to ensure each person is as comfortable as possible in their new home.

## *Our Residents*

Our residents are elderly and/or developmentally disabled. Some have been with us over ten years and many are from the local area. Our staff have become very close to our residents.

We care for our staff like family. Perhaps this is why we have a much lower turnover rate than is common in this industry. This low turnover has allowed our residents to become very comfortable with our staff. Many of our residents think of their caregiver as family.
